

Hi all,

Our workplace is forming a team to participate in the [2026 Go Coast Commuter Challenge](#)!

It's simple – we log commutes/trips that replace driving alone with carpooling, public transit, biking/walking, or teleworking, and get entered into drawings for prizes from local businesses.

The Commuter Challenge is hosted by the Go Coast program of the [WMPO](#), the regional transportation planning agency. This annual challenge aims to reward alternative transportation usage, improve air quality, and reduce traffic congestion.

There's some great stuff to win, for teams (a guided tour at Airlie Gardens) and for individuals (gift certificates, tickets to museums/shows, and more!).

The challenge dates are October 5-18. Track your alternative transportation trips made during that time at gocoastnc.org/2026-commuter-challenge. When you enter your miles traveled, be sure to indicate our team name, _____!

Let's do our part for cleaner air and a chance to win those sweet prizes!
