

We're participating in the 2026 Commuter Challenge! During October 5 -18, our employees are swapping drive-alone trips for carpooling, public transit, bicycling and walking, or teleworking when possible.

We're in it to win it! The Commuter Challenge has team prizes and individual prizes to reward star commuters.

This annual challenge is hosted by the WMPO, Wilmington's regional transportation planning agency. The challenge aims to reward alternative transportation usage, improve air quality, and reduce traffic congestion. We're proud to do our part!

Learn more and join us in the challenge by visiting gocoastnc.org.
